Projects

CezanneUSA (Rails, Backbone, AWS)
Women's fashion wholesale e-commerce web application for Style in USA, inc.
- Advanced Backbone-on-Rails design patterns, including overriding parse methods to create Rails-like associations client-side
- Optimizing and rescaling product images and uploading in S3 via paperclip API
- Scalable search queries via ElasticSearch, and logistics/backup automization via CRON jobs

Burger Builder (React, Redux)
React course final project demo app built with latest technologies and best practices
- Advanced Redux design patterns with middleware for dynamic reducers and lean action creators
- Incorporated ES6 features for improved performance and readability
- Responsive Web Design with CSS-Modules and lazy loading assets

ProKeys (Rails, Backbone)
Demo web application for playing, customizing and recording music on your keyboard
- Advanced use of dynamic elements for custom drag-and-drop UI, and preparing audios
- Extensive use of Ajax in modal authentication for partial user access to content

Zombie Smash (Javascript, HTML5)
Original shooting survival game written in Javascript
- Sprite based visual interface consuming Canvas 2D API
- Supports smooth animation and intuitive controls via Javascipt engine

Experience

Style In USA, Inc. (May, 2017-July, 2018)
- Solo fullstack developer, hands on experience with full life cycle of web applications, from planning to deployment and maintenance, from server set-up to UI design
- CezanneUSA.com, wholesale e-commerce web app built from scratch, managing 15,000 active products and 2,500 customers; and averaging 300 fully shipped orders monthly
- 3rd-party Web Application for Shopify retail store with an inventory system, custom storefront add-ons (color swatches, likes), and live statistics by consuming Webhooks
- Frontend theme development and integration for Shopify based Gozon.com
- Command line scripts automating mass printing of labels and invoices from CSV

Education

Website Development App Academy (Fall 2014)
- Fullstack web development course. Acceptance rate < 5%
- Strong emphasis on code quality and design patterns

University of Southern California
BA Philosophy
- Two time Dean's List
- Member of USC Golden Key International Honor Society
